

Formica® Magnum™ Cubicle System

Formica® Magnum™ is a cubicle system made of Formica® compact grade laminate and nylon coated hardware. A rational concept of manufacturing and handling makes Formica® Magnum™ a very economical system with high quality. There are almost infinite opportunities to combine different colours of hardware and compact grade laminate, which means great freedom to create a personal touch.

NEMA LD3

EN438

ISO4586-2

BS476 Part 6 & 7
